Preferred Drugs

Preferred drugs are listed in this *Drug Formulary*. Drugs on the list are selected based on quality (effectiveness and safety) as well as cost-effectiveness. Doctors and pharmacists have worked together to develop the Formulary, which includes generics and brand name drugs that are approved by the U. S. Food and Drug Administration (“FDA”).

For the Member: Generic drugs contain the same active ingredients in the same amounts as brand name products. However, they may be a different color, shape, or size.

For the physician: Please prescribe preferred products and allow generic substitutions when medically appropriate. Thank you.

Key

ACA: Affordable Care Act. Those drugs and products available at no Cost-share to the Member with certain criteria because they are part of Preventive Care. Otherwise, you will pay the Cost-share for the Tier shown.

DS: Diabetic Supplies. Diabetic supplies that may be purchased at a pharmacy. You pay the diabetic supplies Cost-share shown in your *Schedule of Benefits*.

LCG: Low Cost Generic. Generic drugs available at the lowest cost. Please note the specific strengths and dosage forms; other strengths and/or dosage forms of these products would be subject to the standard generic Cost-share.

OTC: Over-the-Counter. You can get these drugs at no cost (if ACA is also indicated) or at your Plan's lowest Cost-share amount (if LCG is also indicated). Otherwise, you will pay the preferred generic Cost-share amount. Your doctor must prescribe them. Present your prescription and Member ID card to the pharmacist.

PA: Prior Authorization. GlobalHealth requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

QLL: Quantity Limit. For certain drugs, GlobalHealth limits the amount of the drug that we will cover.

ST: Step Therapy. In some cases, GlobalHealth requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.

*Indicates single source brand product. **Indicates multi-source brand product.

PREVENTIVE CARE INDEX

These drugs are available with no Cost-share to you. Drugs listed are based on the recommendations of the U.S. Preventive Services Task Force ("USPSTF") in conjunction with the recommendations of the Advisory Committee on Immunization Practices ("ACIP") of the Centers for Disease Control and Prevention ("CDC") and the Health Resources and Services Administration ("HRSA"). Recommendations, ages, and populations may vary.

The following list of preventive drugs should be used as a guide. A comprehensive listing of drugs is in the Therapeutic List on page 5. Coverage of any of the listed drugs, including over-the-counter ("OTC") drugs and products requires a prescription from a licensed healthcare Provider. The availability or coverage of these drugs without Cost Sharing may be subject to limitations and exclusions.

This list is subject to change as ACA guidelines are updated or modified.

Immunizations

Covered immunizations include those that are routine vaccines recommended by ACIP and that meet the FDA approved indications for age and/or gender limitations. Coverage also includes non-routine immunizations as designated by the ACIP.
