Overview

GlobalLink™ is an online tool available to all contracted Providers. GlobalLink™ is provided to allow Providers to:

- Verify eligibility
- Review Member Demographics
- View benefit information
- Create Referrals
- Check Preauthorization/ referral review status
- Check claim status
- Communicate with GlobalHealth
Accessing GlobalLink

GlobalLink may be accessed at http://www.globalhealth.com using any compatible PC and web browser.

To access GlobalLink, open a supported web browser and navigate to http://www.globalhealth.com. From the GlobalHealth home page, pictured below, select “For Providers”, “GlobalLink”

Access to GlobalLink requires a unique username and password. To request a GlobalLink user account, visit www.globalhealth.com/globallink.aspx, and submit the request through ‘Request a new GlobalLink Account’ tab.

Note that GlobalLink™ is only available to contracted providers. Please allow 7 business days to process your request.
GLOBALLINK ACCESS REQUEST

Please complete the form below to request access to GlobalLink™. Note that GlobalLink™ is only available to contracted providers. Please allow 7 business days to process your request.

To request multiple users, please submit a separate form for each user. Alternatively you may contact Provider Relations (globeLink_access_request@GlobalHealth.com) to request a Bulk User Access Request Form.

Enter office locations, tax-IDs, and NPIs below. The first row is required. More rows are provided if your access request is for multiple offices / locations or tax IDs.

Office Location

Contact Information

What do you need access to for the provided office locations? *

☐ Claims
☐ Referrals

Enter the contact information for the user requesting access to GlobalLink.

First Name *

Last Name *

Contact Work Phone Number *

XXX-XXX-XXXX

Work Email Address *

Office Manager First Name *

Office Manager Last Name *

Office Manager Work Phone Number *

By checking this box, you acknowledge that a GlobalHealth representative may contact your office manager to validate the information provided. *

☐ Captcha

I'm not a robot
Using your unique login credentials, enter your User ID and Password and click “Login.” If you experience any issues logging into GlobalLink, such as forgotten passwords, please email globallink.access@globalhealth.com
Basic Navigation

Once logged into GlobalLink, most screens have a similar look and feel. The screenshot below depicts the GlobalLink home page, identifying and numbering a few standard navigation features in red. You may navigate most screens by clicking the tab bar. Additionally, the standard GlobalLink toolbar is available from most screens within GlobalLink. At any time, you may Click the icon to view information about the activity in which you are working, or the icon to print the page you are currently viewing.

Hyperlinks are generally highlighted in blue and allow you to drill into more detail.
Viewing Patient Information

There are three primary ways to locate a patient, by using the patient list, the Patient Search feature, or by using “First Access.” To access the patient list, click the “Pt List” tab from the primary tab bar on any screen within GlobalLink. From this page users can view a list of the patients with referrals that the user is allowed to access.

The Patient List page has an alphabetical search index that works much like a phone book. Clicking a letter takes you to the first page that lists patients whose last names start with that letter. You can also use the First, Prev, Next, and Last links to navigate the pages.

Click a patient’s name to drill into the patient’s record.

If the patient whose chart you want to view is not on your patient list, you can gain access to that patient using Search All Patients. Click the Search All Patients to find additional patients. Search All Patients allows you to search for a patient record to which you do not currently have access. When you search for a patient record using Search All Patients, you must enter more information than you would for a normal patient search. Enter your search criteria and click Search.
To search for a specific patient, click the “Patient” button from the toolbar in the top right corner of the screen. Enter your search criteria (Name or Member ID Number) and click Search. Most Member ID Numbers are 11 digits. Be sure to include all digits to ensure an accurate search.

Select ‘Recent’ to select the patient you most recently viewed. You may also use the Additional search criteria option to find a patient record.
Verify Eligibility and Benefits

Drilling into the patient’s record opens the patient detail screen. From the screen below, you will see the selected patient’s information in the top banner. You can select Patient Profile and Referrals/Claims for this patient by clicking links within the portlet on the left side of the screen. To view Coverages & Benefits, click the Patient Profile link. The Coverages & Benefits link lists available coverages for the selected patient.

Click the Payor/Plan hyperlink for a specific row to view more details related to the selected coverage. This would typically be the Coverage ID associated with GlobalHealth. You may select ‘View all coverages on file’ to view all Benefits for the selected patient.
Working with Referrals

To create, print, or view a referral, the user must first locate and select a patient using the steps documented in the “Viewing Patient Information” section. From the patient detail screen, click “Referrals/Claims.”

Writing a New Referral

To write a new referral, “click on New Referral” from the menu on the left-hand side of the page. Writing a new referral involves providing data on several screens. The first screen captures general information about the referral, such as the priority and the type of the referral. Required fields are noted by a ⚖.
Click Next when you are finished entering the basic referral information. The next page is the Diagnoses Procedures page. This page allows you to enter a diagnosis and/or procedure information that you want to associate with the referral. You may also enter comments concerning the diagnosis, the procedure, or the referral in general. You must enter information in the Diagnoses and the Procedures fields to proceed to the next step in the referral process. You may enter multiple diagnoses and procedures for a referral.

Select a specific diagnosis code for the patient by one of the following methods.

- Type in the specific diagnosis code
- Type in part of the diagnosis name or a key word (e.g., diabetes), which will pull up a matching list from which to select
- Click the magnifying glass symbol for a selection list

Select a specific procedure code for the patient by one of the following methods. For procedures, make sure to enter a quantity.

- Type in the specific procedure code
- Type in part of the procedure name or a key word (e.g., cat scan, MRI), which will pull up a matching list from which to select
- Click the magnifying glass symbol for a selection list
To add referral notes, click on (Recommended) to pre-fill the Note text box with template guidelines. Enter all relevant information for the referral to be authorized within the Note box. You may attach documentation (Medical records, MRI scan results, etc.) for further review. Allowed file types are PDF, JPEG, TIFF, TIF, and DOC. Once complete, click ✓ Request Referral.

The Referral Summary page provides an opportunity to review the referral. To send a message regarding this referral, click the 📫 Referral Message button. To add a note, click 📝 Add Note/Attachment.
To send a message to the GlobalHealth Utilization Management Department, click the Referral Message button and enter UM into the “To” field, and select a Utilization Management representative (Kelly Butler or Julie Jakowski). This will send the message to that Utilization Management representative. Multiple representatives can be selected to receive the message. Fill in the “Subject” and “Note” fields and click Send Message to complete.
Viewing Referrals by Member

To review all referrals for a specific patient, click the “Referral by Member” link on the left side of the screen. By default, only the patient's active referrals are displayed. Active referrals include referrals that are new, open, authorized, or pending review. Select ‘Show All Referrals’ from the View Option tab at the top of the page to view all of the patient's referrals, including those that are closed, denied, and canceled. You may click on any Referral ID for referral summary. Data may be sorted by clicking the column headings.
Viewing Referrals Search

Users may review all active referrals made to a particular provider over a given time period on the Referral Search page. Select search criteria including the Provider’s name, Referral Status, Scheduling Status, and Creation Dates. Click the Search to view a referral summary.
Checking Claims Status

This feature allows providers to view the AP Claims that they are involved with for specific patients. Providers can view different types of information about their patients’ AP Claims, such as claim number, service date, date that the claim was received, status of the claim, and a detailed report concerning the claim. Select Claim by Member and select a provider from the drop-down list to view claims for the selected provider.

Click on the Claim # to view detailed information for the claim. Scroll down the page to view all information.
Claims may also be located by provider, vendor, or Claim ID. Click on the “Claim Search” link to open the Claim by Provider/Vendor page. The page provides filter criteria to filter claims by provider, vendor or Search by Claim ID. Leave the date fields blank to search for all records. Click on the Claim # to view detailed information for the claim. Scroll down the page to view all information.
Checking Remittance Advices

Search by Vendor

This feature allows providers to view the Remittance Advice for specific vendors. Select the vendor record linked to the User’s access and provide a date range.

Search by Check Number

This feature allows providers to view the Remittance Advice for specific GlobalHealth check numbers. Enter the check number and select search to view the associated Remittance Advice report.
Utilities

The “Utilities” page offers the ability to perform administrative activities.

To access the utilities page, click the “Utils” button from the toolbar in the top right corner of the screen.
Setting Your Start Page

To set your default start page, click the “Set Default Page” link from the Utilities page. From this page you may change the page that appears by default after logging in to GlobalLink.

If you choose a page that requires a patient to be selected, that activity is also used as your default page upon selecting a patient. It also appears when you close the patient.

To set the default start page, navigate to the page you want to appear by default and click “Set Default Page” at the top of the banner.

To revert back to the standard system home page, click the “Click here to clear your default page and use the system settings instead” button, from the “Utils” page.

Securing Your Session

Securing your session allows you to lock your page for 10 minutes while you step away from your computer. This will lock your session until you are ready to resume. To secure your session, click on the “Secure” button in the tool bar at top of page.
You may resume your session by entering your password. Sessions are secured for 10 minutes before your GlobalLink session is terminated and your browser is redirected to the login page.

Note: It is important to remember to log out of GlobalLink when your work is complete, rather than simply closing your web browser. You may logout of GlobalLink at any time by clicking the “Log Out” button in the top right corner of the GlobalLink toolbar. Logging out of GlobalLink should return your web browser to the GlobalLink login page. From this page, it is safe to close your web browser or navigate to another web site. For security reasons, you will be automatically logged out of GlobalLink after a period of inactivity.
This frequently asked questions (FAQ) section outlines common questions.

<table>
<thead>
<tr>
<th>Issue/Question</th>
<th>Answer/Resolution</th>
</tr>
</thead>
<tbody>
<tr>
<td>What if I have forgotten my password?</td>
<td>Send an email to <a href="mailto:Globallink.access@GlobalHealth.com">Globallink.access@GlobalHealth.com</a> giving your user ID, tax identification number and group NPI.</td>
</tr>
<tr>
<td>Can our organization use a shared ID?</td>
<td>No. HIPAA Access Control §164.312(a)(1) prevents shared user IDs.</td>
