What are the DIFFERENT PARTS OF MEDICARE?

PART A (Hospital Insurance)

is part of Original Medicare and covers hospitalization, skilled nursing facilities and home health care.

PART B (Medical Insurance)

is also part of Original Medicare and covers outpatient care, certain doctors' services, medical supplies and preventive care.

PART C (Medicare Advantage)

is an all-in-one alternative to Original Medicare to enhance your health coverage. Medicare Part C, such as a plan from GlobalHealth, combines Part A and Part B and often Part D prescription drugs. Medicare Part C usually offers more benefits for services such as dental, vision and low to no copays on physician visits. You must have Medicare Part A and B to enroll in a Medicare Advantage plan.

PART C (Medicare Advantage)

is an optional part of Medicare that provides prescription drug coverage. You must have Medicare Part A and/or B to enroll in a prescription drug plan. Many of GlobalHealth plans include prescription drug coverage.

Chronic Special Needs Plans (C-SNP)

WHAT IS A C-SNP PLAN?

C-SNPs are types of Medicare Advantage plans designed for Medicare beneficiaries with chronic conditions. Insurers may offer C-SNP plans for only one condition or a group of conditions.

WHAT CONDITIONS QUALIFY?

The Centers for Medicare and Medicaid defines which condition or group of conditions a Medicare Advantage plan may cover through a C-SNP plan. For 2026, GlobalHealth offers C-SNP plans in all of our service area counties.

The applicable chronic conditions for C-SNP plans are:

- Chronic heart failure
- Diabetes mellitus
- Cardiovascular disease including cardiac arrhythmias, coronary artery disease, peripheral vascular disease, and chronic venous thromboembolic disorder

HOW DO C-SNPS HELP?

Every Special Needs Plan has a model of care, approved by the National Committee of Quality Assurance (NCQA). Each member receives a tailored care plan and care team to help manage their chronic conditions and reach their optimal health.

Based on a Model of Care review, GlobalHealth has been approved by the National Committee for Quality Assurance (NCQA) to operate a Special Needs Plan (SNP) through 2026.

D-SNP is Dual eligible special needs plan

WHAT IS A D-SNP PLAN?

D-SNPs are types of Medicare Advantage plans that provide additional financial help for medical expenses for persons who qualify. To be eligible for a D-SNP plan, you must have Medicare Part A and Part B and qualify for Medicaid.

HOW DO D-SNPS HELP?

A GlobalHealth D-SNP* plan provides enhanced benefits designed to serve your needs.

*Enrollment in a GlobalHealth D-SNP plan is dependent on Medicaid status. Not everyone enrolled in Medicaid qualifies for a GlobalHealth D-SNP plan.

Based on a Model of Care review, GlobalHealth has been approved by the National Committee for Quality Assurance (NCQA) to operate a Special Needs Plan (SNP) through 2028.

Do you have **both** Medicare and Medicaid?

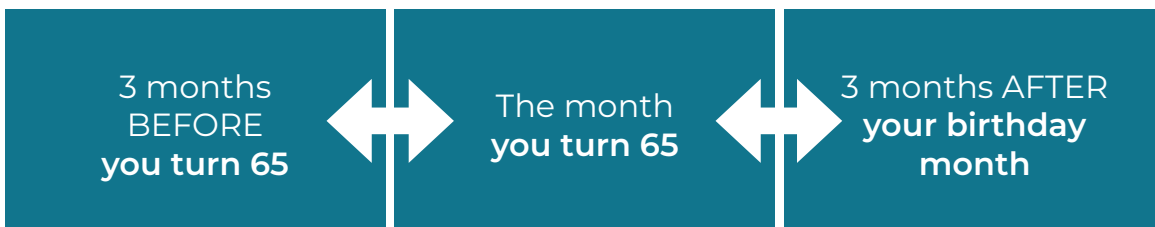

Have you recently moved?

Are you **leaving your employer or union coverage?**

Do you qualify for a **Special Needs Plan?**

Are you turning **65 SOON** or have you turned **65 WITHIN THE LAST 3 MONTHS?**

You can enroll in a Medicare Advantage plan during a 7-month window around your 65th birthday:

ANNUAL ENROLLMENT PERIOD

If you are a current Medicare beneficiary who doesn't qualify for an SEP, you can review your coverage options, but cannot enroll in a different plan until the Annual Enrollment Period.
